RESERVA

Our Reserva and Ecologic cavas are a good example of how a good cava should taste like: fruity, elegant & well balance.

At Sumarroca, we work with organic estate fruit. Mostly free-run grape juice is used for this cava.

Aged at least 24 month after the second fermentation in the bottle (traditional method) in order integrate all the complexity from the soils, grapes and vintage characteristics.

LETARGIA

The time of lethargy in the vineyard is a pause; a period of latency, when the vines rest and sleep. Sumarroca Letargia Gran Reserva Brut Nature cava is aged for 10 years, maturing to achieve the best aromas and subtle details.

Made from carefully selected fruit from our vineyards, this cava reveals the complexity and long finish that extended ageing brings.

NÚRIA CLAVEROL

GRAN RESERVA

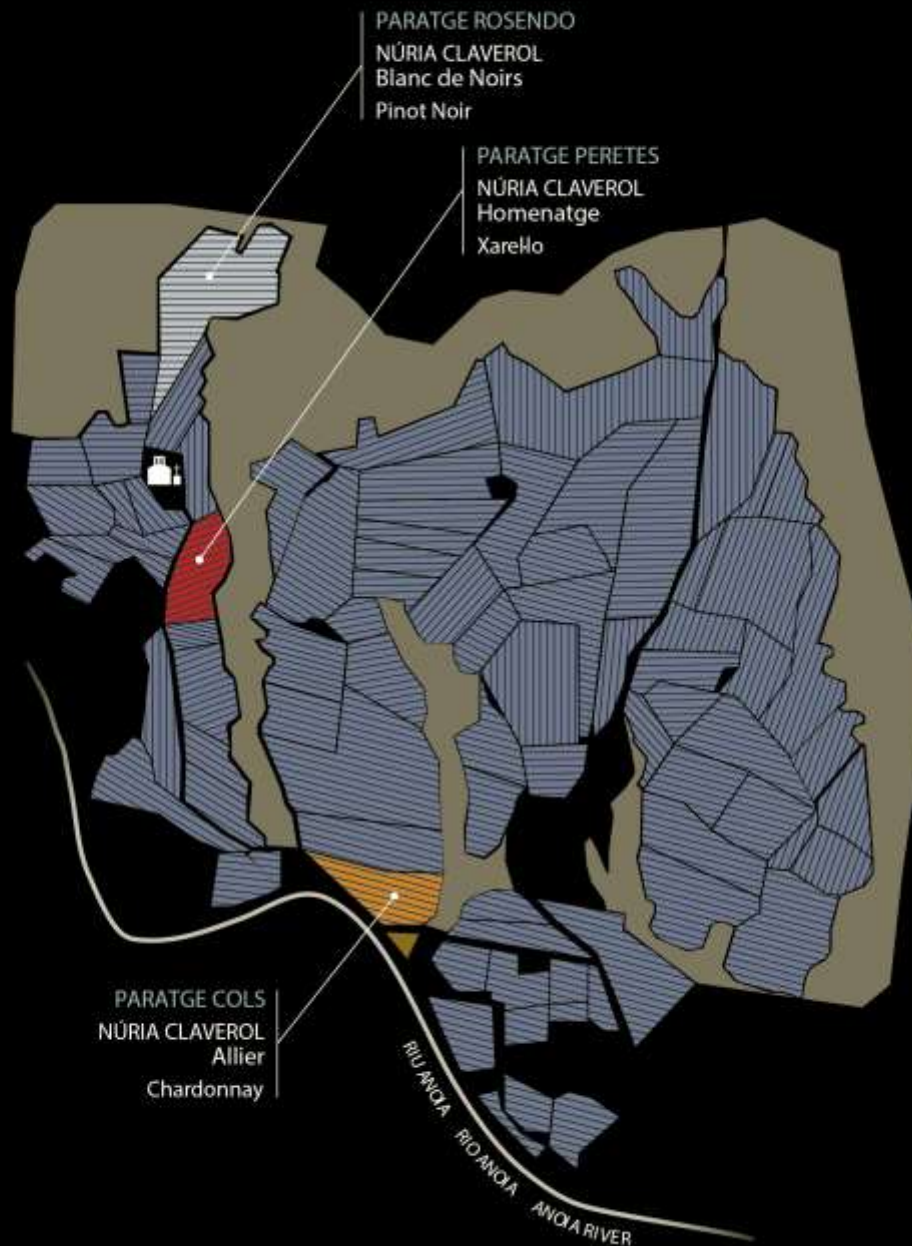

Range of very long ageing Gran Reserva of single vineyard. From the best and oldest plots of our estate, carefully hand harvested.

Each of them show a unique character that represents the virtues of each variety and terroir.

Ms. Núria Claverol is the wife of the founder Mr. Carles Sumarroca, and these cavas are the perfect homage from the family to her.

2CV

In the early 20th century, after the Phylloxera, the Marquès de Monistrol needed manpower to work at his winery, that's why many immigrants from different places in Catalonia and Spain arrived to Monistrol d'Anoia seduced by the labor opportunity to work in exchange for being metayers, having a house and two horses to help work the land, that nowadays is the Finca Sumarroca.

XAREL·LO

At Sumarroca we want to show how interesting is our region Penedès, widely recognized for combining wine made with traditional and international varieties.

But specially, our biggest bet is for our local grapes, our legacy, and Xarel·lo is in the center of it all.

Either as a blend or single variety, as a young or oaked wine, as sparkling or as still wine, Xarel·lo is a very versatile grape that will surprise you.

ROSE

When the cold subsides and the earth's temperature begins to rise, the vineyard comes to life. It is the moment in which the sap begins to flow inside the vine until it sprouts like tears from the cuts that have been made during pruning. This magical phenomenon is called "The cry of the vine", which reminds us of the cry of a newborn, a cry that takes in the air for the first time to start a new life cycle.

A cry loaded with illusions that have just been born. Martina, the first great-granddaughter of Nuria Claverol and Carles Sumarroca, founder of Bodegas Sumarroca, gives this Pure Rosé its name.

NEGRES

The varieties and the high altitude of our vineyards create some very expressive and elegant red wines.

We are obsessed in producing wines that keep the acidity & the presence of fruit. With oak maturation that help enhance the grape character.

All about good wines with the character of the varietal and our terroir.
